

Hot water supply at major events

Solution:
Hot water supply

Hot water supply at major events

The Hotmobil heating units known by the name of 'Eventmaster' have been playing an indispensable role in eps campsite sanitation facilities for many years. They provide hot water at events like the three-day Southside Festival on the former military airbase near Tuttlingen. "These units have to be capable of withstanding a great deal of use. Quite apart from the large numbers of people, there is an element of vandalism that it is not possible to contain. Then add to that the fact that bad weather often gives rise, quite literally, to mud battles. Under these conditions, it is absolutely essential to have showers that work properly, coupled

with the delivery of sufficient volumes of hot water, where possible at a constant temperature", states Ben Gutt of eps. The fact that this is all far from self-evident is something Gutt knows only too well from his early days involved with SPLASH. In close collaboration with the technical specialists from Hotmobil, the function of these heating units was optimized. This partnership-based development work has forged close ties between these two service providers. As a consequence, the powerful Hotmobil Eventmaster units have become an indispensable part of eps campsite sanitation facilities right across Europe.

Type	EVENTMASTER MSH 700
Heat output	700 kW
Dimensions L x W x H	3,200 x 1,200 x 2,350 mm
Weight	approx. 3,500 kg (without heating oil/water)
Medium	Hot water 90 / 70 °C
Safety pressure	Heating 3 bar Domestic hot water 10 bar
Safety technology	to DIN EN 12828
Circulation DHW	Yes
Delivery data of main pump	20 m ³ / h : 6 mWS
Hot water output 45°C	17,200 l/h
Heating oil tank	externally variable
Fuel	Heating oil EL (natural gas optional)
Frost protection	No
Remote monitoring	optional
Power connection	400 V / CEE 16 A
Flue system	Stainless steel flue
Flexible connection lines	IF / OF / HW / CW / circ.

Subject of technical changes - only for information

Options:

Can be combined with various tank sizes and with other accessories, e.g. mobile air heaters to heat tent interiors and/or air-conditioning.

Hotmobil Germany GmbH - Performance Profile:

- Hire, Sale or Lease from Power stations for mobile production of hot water, hot water and steam, Refrigeration and Air Conditioning
- 24-hour hotline
- 10 locations in Germany
- Energy guarantee for individual emergency solution within a 6-hour response time
