

Special heating unit

EVENTMASTER MSH 700

ArtikelNr.: HM2000000217

Your advantages

- Optimised dimensions for transport on lorries
- Can be moved with cranes and for klift trucks
- DHW output up to 17,200 l / h

The special unit for large domestic hot water requirements at your event.

With an output of up to 700 kW, these units were designed specifically for the large domestic water requirements of various applications, for example, major events. Fitted with pumps, expansion vessel,

a high performance plate heat exchanger and circulation connection. The compact dimensions reduce transport costs. Can be combined with different tank sizes and other auxiliary equipment, for example, mobile air heaters for air-conditioning and/or heating, to provide you with all the options you need.

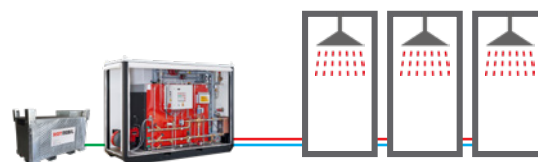

Technical specifications / Accessories

Type	EVENTMASTER MSH 700
Heat output	700 kW
Dimensions (L x W x H)	3,200 x 1,200 x 2,350 mm
Weight	approx. 3,500 kg (without heating oil/water)
Power connection	400 V / CEE 16 A
Fuel	heating oil EL (natural gas optional)
Medium	hot water 90° / 70°C domestic hot water 10° / 60°C
Safety pressure	heating 3 bar domestic hot water 10 bar
Safety technology	according DIN EN 12828
Hot water output 60°C	20 m³/h : 6 mWs
Circulation	yes
Frost protection	no
Remote- / tank monitoring	optional
Flue system	stainless steel stack
Connection	on site: IF/OF - 3" / HW/CW - 2" / circ. - 1"

Areas of application:
