Subject to technical changes - only for information

Your advantages

- Easy to handle
- Weather-resistant
- For indoors and outdoors

Mobile ramps for the flexible deployment of cables. In urban areas in particular, driveways, entrances to underground car parks, pavements and passageways can often pose a problem for the flexible deployment of cables. This is why our portfolio includes mobile

ramps. Made of robust hard rubber, they are suitable for use with any kind of vehicle. From cars to lorries, as well as for pedestrians, cyclists and wheelchair users.
